

3M ENGINEER GRADE PRISMATIC 3430 SERIES

DECLARATION OF CONFORMITY

The Product

Type of Product:

Microprismatic Retroreflective Sheeting for Permanent Traffic Sign Faces

Product Number:

3M™ ENGINEER GRADE PRISMATIC 3430 SERIES

The product is defined as all 3M imaging components used to make permanent traffic sign faces.

The Manufacturer :

3M

Traffic Safety Systems

Display & Graphics Division

UK Address:

3M Centre

Cain Road

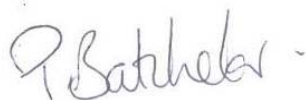

Bracknell, Berkshire RG12 8HT

We, 3M, hereby declare under our sole responsibility that The Product, as referred to above and to which this Declaration of Conformity relates, meets the requirements of BS EN 12899-1:2007 section 4.2 and has been granted ETA 10/0118. This ETA constitutes third party certification that the Product meets the performance requirements of Class R1. (These reflective requirements are identical to those for Class RA1 sheeting in BS EN 12899-1:2007.) This ETA has been granted following independent Initial Type Testing of The Product and a 3rd party Factory Production Control audit at the 3M Factory.

We certify that all supporting formulation, processing and test documentation is retained in the Manufacturer's Technical File under an appropriate quality management system.
