Product details

- 1750mm x 630mm (length x width)
- 452mm (seat height)
- Galvanised/galvanised & coated finish complete with plastic end caps
- Concrete in 300mm (below ground)

Installation & use

Supplied fully welded for easy installation on site.

The Rockingham Seat requires a trench of a least 1000mm x 600mm x 300mm deep for casting into concrete. Clean off any concrete splashes after installation. Always allow sufficient time for concrete to cure before usage.

This product is guaranteed for 12 months (if installed and used correctly).
