

ENDURAMAT

MULTIFUNCTIONAL & REVERSIBLE Mat suitable for heavy duty ground protection/temporary access.

Specifically designed for outdoor use, EnduraMat enables you to drive cars, forklifts, trucks and cranes up to 80 tonnes, without causing significant damage to the ground underneath.

EnduraMat is simple and fast to install. It comes in a variety of colours and complete with its quick & easy-to-use connectors. EnduraMat has an easy-to-clean pattern which can simply be brushed or hosed down to remove mud after use.
