

MULTI-PURPOSE MIRRORS WITH WHITE FRAMES 2 DIRECTIONS

VIALUX® multi-purpose convex mirrors are used in a multitude of environments, and for a multitude of purposes both internally and externally; construction sites, warehouses, for surveillance, loading bays, driveways...

POLYMER® OPTICS

Unbreakable, high quality, clear and sharp image, with no distortion. Anti-UV treated frames and optics to ensure longevity and protection against the elements.

P.A.S® OPTICS

In addition to the Polymer® qualities, P.A.S® optics have added anti-static, plus anti-scratch coating offering a warranty of a further 2 years.

2 DIRECTIONS

Simple frames to be used in multiple situations with convexity offering a 90° angle of vision regardless of the environment in which the multi-purpose mirror is used.
