BLACK BULL FLEX Protection Guards

A unique and patented development of our standard **BLACK BULL** Protection Guards that features the strength and protective attributes of steel combined with the ability to flex up to 10° from the vertical, reducing the incidence of damage and the need for repairs to both guard and vehicle. This is achieved by equipping the guard with flexible shock absorbing polyurethane (PU) pads. These pads are UV, weather and temperature resistant, making them suitable for indoor and outdoor use.

- Flexible and yielding guard
- Flexes up to 10° from vertical
- Minimises damage to vehicles
- Reduces damage to floor
