

BRIDGEHILL®
WE SIMPLY BLOCK FIRE

DataSheet

EXTENDABLE POLES

The Bridgehill Extendable Poles are designed to simplify and enhance the deployment of fire blankets, particularly when managing fires involving larger vehicles, such as forklifts, trucks, or buses.

How to use the Bridgehill Extendable Poles

1. Prepare

Remove the extendable poles from its bag and unroll the fire blanket to expose the eyelets.

2. Attach

Hook the poles through the eyelets.

3. Deploy

Extend the poles and use it to position the blanket over the vehicle safely.

PRODUCT CODE

FB-POL-001-BGH

PRODUCT GROUP

EXTENDABLE POLES

ADJUSTABLE REACH

1.4 to 3 meters

WEIGHT

1.5kg

- Provides optimal coverage for various vehicle sizes
- Designed to maintain a safe distance between responders and the fire, particularly for taller vehicles
