

DataSheet

The home of innovation and elite performing PFAS-free fire extinguishers in the UK, CommanderEDGE boasts a number of reliable and extensively tested fire extinguishers.

The range is the choice of the professional with its mix of performance, quality and value.

REMANUFACTURED CO₂ FIRE EXTINGUISHER

The new CommanderEDGE Remanufactured CO₂ fire extinguisher range is not only a cost effective solution for Class B and Electrical fires but they offer a more eco-friendly solution for you and your customers.

Remanufactured in the UK, they are UKCA approved and feature the added reassurance that our assemblies have been granted Kitemarked status of “The Process of Remanufacture” BS 8887-220:2010 to upgrade a used product to an “As New” fire extinguisher.

Technical Specification	RX-KMD-002-ECF	RX-KMD-005-ECF
Capacity	2kg	5kg
Fire Rating	34B	55B
Extinguishing Medium	CO ₂	CO ₂
Working Pressure	169 bar @ 60°C	169 bar @ 60°C
Temperature Range	-20°C to 60°C	-20°C to 60°C
Cylinder Material	Aluminium	Aluminium
Pressuring Gas	-	-

PRODUCT CODE

RX-KMD-002-ECF | RX-KMD-005-ECF

PRODUCT GROUP

CommanderEDGE Extinguishers

DIMENSIONS (mm) (height x width x diameter)

RX-KMD-002-ECF: 580 x 175 x 185

RX-KMD-005-ECF: 850 x 275 x 370

WEIGHT

RX-KMD-002-ECF: 4.7kg

RX-KMD-005-ECF: 11.28kg

- Kitemarked remanufacturing process
- UKCA approved
- Supplied with safe horn/hose
- Cylinders fully remanufactured, Inspected and tested in accordance with BS EN 1802:2002
