

DataSheet

The home of innovation and elite performing PFAS-free fire extinguishers in the UK, CommanderEDGE boasts a number of reliable and extensively tested fire extinguishers. The range is fully Kitemarked by BSI and is the choice of the professional with its mix of performance, quality and value.

POWDER FIRE EXTINGUISHERS

A powder fire extinguisher is extremely versatile, suitable for use on Class A (combustible materials), Class B (flammable liquids) in open spaces, and Class C (flammable gases) fires. It's for this reason they're known as 'ABC' extinguishers.

This extinguisher smothers fires by producing a thick barrier between the fuel and the source of oxygen. A powder fire extinguisher shouldn't be used in confined spaces because the powder can easily be inhaled. This type of fire extinguisher is ideal for premises including garage forecourts, commercial boiler rooms and workspaces that feature welding.

Technical Specification	FX-PWD-006-CCF	FX-PWD-009-FCF
Capacity	6kg	9kg
Fire Rating	43A 233B C	55A 233B C
Extinguishing Medium	ABC Powder	ABC Powder
Working Pressure	14 bar @ 20°C	14 bar @ 20°C
Temperature Range	-30°C to +60°C	-30°C to +60°C
Cylinder Material	Steel	Steel
Pressuring Gas	Nitrogen	Nitrogen

PRODUCT CODE

FX-PWD-006-CCF | FX-PWD-009-FCF

PRODUCT GROUP

CommanderEDGE Extinguishers

DIMENSIONS (mm) (height x width x diameter)

FX-PWD-006-CCF: 490 x 240 x 160

FX-PWD-009-FCF: 584 x 287 x 183

WEIGHT

FX-PWD-006-CCF: 9.28kg

FX-PWD-009-FCF: 13.7kg

- Kitemarked to BS EN3
- MER/MED approved
- UKCA and CE approved
- Plastic base skirt for protection
- Corrosion-resistant finish
- Full range of spare parts available
- 5-year warranty
