

Cresco 5

Code: CR005

For Summer and Winter

A shoulder mounted spreader offering up to 9kg capacity and up to a 6 metre spread width.

PRODUCT DESCRIPTION:

The on off mechanism on shoulder spreaders has historically been fiddly. In addition the zip on the bags and the gearboxes have been susceptible to breaking. We have significantly enhanced the gearbox, improved the tensile strength of the bag and simplified the design of the spreader providing superior reliability and strength.

Most important of our improvements is the gearbox - the new Cresco 5 is built for smooth running and longevity.
