Application:

General Purpose

Quantity:

70 bags

Weight - Kg:

700

Ean:

0700175913616

Description: Evo Recycled® Absorbent Clay Granules - 20 Litre Bag

Evo Recycled® EVO DRI is an industrial absorbent comprised of 100% recycled gypsum in the form of granules (light grey colour). EVO DRI shows high absorption capacity, is easy to handle and transport, fireproof and can be used both indoors and outdoors.

The particle size of EVO DRI (2.3 mm-6mm) has been selected for the best balance of properties.

- Good absorbent performance.
- It leaves surfaces safe, clean and dry.
- Eco-friendly (recycled material).
- Lightweight product to transport and in its use.
- Fireproof.
- It is harmless to people, animals and plants

Applications

Service stations, garages, service and cleaning companies, railway, transport companies, firemen, general industry, energy sector etc.

Instructions for use

Sprinkle the product on the spill until it is completely covered. Let it work for 3 minutes. Stir the granules to ensure they are in contact with all the liquid. Let it work for a further 2 minutes. Clean up with broom and shovel.

Disposal

The used product must be disposed of responsibly and via the relevant waste disposal route for the substance absorbed. Its recovery, labeling and disposal must be carried out according to current regulations.
