Evo Recycled® Absorbent Station Refill Pack

Refill Pack for the EVO Recycled® Absorbent Station (Blue Cabinet Absorbent Station)

EVO absorbent material is manufactured in the UK by Fentex using recycled, sustainable natural fibres in place of non-renewable synthetics.

REDUCING your costs, REDUCING your use of non-sustainable products, REDUCING your carbon footprint.

The unique EVO pads are super absorbent cotton fibre pads made in the UK from 85% recycled natural fibres, reducing your use of non-sustainable products. Weight for weight, EVO pads are the most oil absorbent pad in Europe and have the lowest carbon footprint of any absorbent pad in Europe. Tough and soft, the pads have a high loft construction for maximum usability and a low linting construction for bench top use. EVO sustainable natural fibre universal use absorbent socks are easy to mould and shape around equipment and machinery and absorb both oil and water based liquids and non-aggressive fluids.

The EVO perforated rip and place absorbent roll effectively absorbs oil, some chemicals and general purpose liquids - absorbing 98 litres per roll. A handy general purpose zero lint super absorbent wiper roll, supplied in a poly-wrapped pack, is much stronger than regular general use rolls. This product is a tough, durable and simple solution to spillages, and is easy to use without the need for specialised PPE.

EVO Recycled® Absorbent Station Refill Pack Contains:

- 100 x EVO absorbent triple loft pads (40cm x 50cm)
- 20 x EVO absorbent socks (8cm x 1.2m)
- 1 x EVO absorbent roll (38cm x 40m) absorbs 98L

Suitable for use with:

- Coolant
- Antifreeze
- Oil
- Water
- Weak chemicals
- Solvents

EVO spill products provide a unique solution for companies pursuing higher ethical and environmental standards without compromising performance and value.

- Each product in the range is manufactured from recycled or sustainable material
- All EVO products are manufactured in Britain with a far smaller carbon footprint than the vast majority of Spill Control products produced overseas
- EVO poly-wrap & box packaging recyclable
