Evo Recycled® Flame Retardant Absorbent Wood Fibre - 30 Litre Bag

Evo Recycled® 30 Litre bag of recycled wood fibre fire retardant absorbent particulate. For use on industrial spillages and general clean-up duties.

Tested to British Standard flammability requirements of BS5852 Pt2 1982.

The lightweight loose particulate is easy to handle and absorbs liquids quickly and easily. Flame retardant wood fibre offers a quick and effective response to any spillage and reacts immediately. It is an organic, recycled, non-abrasive, granular product made from wood fibre, which has been dried at high temperatures. It is a natural ecological absorbent with low environmental impact. Dispose of in accordance with local authority and liquids absorbed.

It can be widely used in all industries but is especially suitable for petrol stations, airports, cleaning companies, railway stations, emergency services and the military.

Available in a two sizes of bag or in a convenient dispenser box with cut out for use as a drip pan to absorb liquids on contact.

The lightweight loose particulate is easy to handle and absorbs liquids quickly and easily.

- Leaves surfaces safe, clean and dry
- Enviro-friendly responsibly sourced recycled material
- Lightweight product to transport and use
- Fireproof
- Harmless to humans, animals and plants
