8 General Purpose Absorbent Socks 8cm x 3m - Boxed

8 General Purpose Absorbent Socks. For use with all non-hazardous liquids. These socks can be placed at the base of leaking machinery to quickly absorb spills, minimising the risk of contamination. Effective for surrounding larger spills to prevent further spreading, absorbing liquids on contact. By containing and controlling leaks at the source, these absorbent socks help to reduce environmental impact by preventing pollutants from reaching drainage systems or sensitive areas.

General Purpose

- Coolant
- Antifreeze
- Oil
- Water
- Weak chemicals
- Solvents
