4 Marine Oil & Fuel Booms 20cm x 3m, Net, Rope, Clips & Rings - Poly Pack

Oil and fuel absorbent booms for use in marine situations such as ponds, lakes, marinas, harbours and rivers. Their hydrophobic properties allow the booms to float on water and only absorb hydrocarbons such as diesel and other pollutants.

- Robust outer net to allow ingress of contaminants
- Super absorbent fill, held in place by an inner skin
- Strong inner rope along the length of the boom for added strength during handling
- Hooks and rings at each end to allow overlapping and coupling together
- Water repellent

Oil & Fuel

- Hydraulic oil
- Engine oil
- Lubricating oil
- Solvents
- Will not absorb water
