Product details

- 750mm tall
- Cast in posts 250mm below ground
- Colour coated options available extra
- Reflective bands available

Installation & use

Bolt Down Fixed posts require bolting to a suitable concrete surface (no less than 300mm cube) by means of three M12 bolts.

Concrete In Fixed Posts are supplied with welded fixing spikes to ensure firm ground anchorage.

Concrete In Fixed Posts require an excavated hole (no less than least 300mm deep) for installation.

This product is guaranteed for 12 months (if installed and used correctly).
