

Visor

Polycarbonate Chinguard Visor

The clear polycarbonate chinguard visor is a perfect choice when you need extra protection from splashes and flying objects coming from below your chin. It is designed to be combined with any of the Hellberg Safe carriers. The visor is approved to medium impact and is suitable for applications such as grinding, construction work, protection from liquid splashes and other general industry work.

Features

- Extra coverage with chinguard extension
- Great impact resistance

1. 20939-001 Polycarbonate Chinguard Visor

Features

Uniform visor design

All Hellberg visors follow the same shape and design, allowing any visor to fit any visor carrier. This makes it easy to swap between different visors for different work tasks without needing to change the carrier.

Quick and easy visor assembly

The face protection system mounts easily to any Hellberg hearing protector as well as safety helmets and stand-alone visor carriers. And it is as easily removed, perfect for when you are switching between different work tasks in noisy environments.

Protection against impacts

Tested to offer protection against impacts to a certain degree. Study the technical data to make sure it is in conformity to your requirements of impact protection.

Protection from liquid splashes

Tested to offer protection against liquid splashes and droplets.

High optical class for clear vision

The clear polycarbonate provides an excellent optical clearness with little to no diffusion. It allows a light transmittance of more than 90%.

Full coverage of the face

The visor is designed to provide full coverage of the face, preventing any penetration from the sides, under or above the visor.

Technical data

Weight	110 g
Length	220 mm
Thickness	1 mm
