

Visor

Acetate Clear Visor

The acetate visor is highly resistant to chemicals and is treated on both sides of the visor to prevent fogging. It is designed to be combined with any of the Hellberg Safe carriers. The visor is approved to low impact and is suitable for risks of chemical splashes and general industry applications.

Features

- Chemical resistance
- Anti-fog treated

1

1. 20933-001 Acetate ClearVisor

Features

Uniform visor design

All Hellberg visors follow the same shape and design, allowing any visor to fit any visor carrier. This makes it easy to swap between different visors for different work tasks without needing to change the carrier.

Quick and easy visor assembly

The face protection system mounts easily to any Hellberg hearing protector as well as safety helmets and stand-alone visor carriers. And it is as easily removed, perfect for when you are switching between different work tasks in noisy environments.

Protection from liquid splashes

Tested to offer protection against liquid splashes and droplets.

Anti-fogging

The surface has anti-fogging properties preventing the visual area to fog when breathing or when walking between warm and cold environments.

Technical data

Weight	90 g
Length	200 mm
Thickness	1 mm
