

Visor

Etched Steel Mesh Visor

The etched stainless steel mesh visor with the unique hexagon shaped etching provides a superior light transmission for added safety even in low-light conditions. The visor protects the wearer from large dust particles and gives a comfortable airflow. It is designed to be combined with any of the Hellberg Safe carriers.

Features

- Light transmittance of up to 85%
- Suitable for forestry and gardening

1. 20915-001 Etched Steel Mesh Visor

Features

Uniform visor design

All Hellberg visors follow the same shape and design, allowing any visor to fit any visor carrier. This makes it easy to swap between different visors for different work tasks without needing to change the carrier.

Quick and easy visor assembly

The face protection system mounts easily to any Hellberg hearing protector as well as safety helmets and stand-alone visor carriers. And it is as easily removed, perfect for when you are switching between different work tasks in noisy environments.

Superior light transmittance

The hexagon shaped apertures allows up to 85% of the light to be transmitted through the mesh with retained impact resistance. This is the perfect visor for professionals working in dusk light conditions and needing visual clarity for a safe work performance.

Technical data

Weight	42 g
Length	185 mm
Light transmittance	85 %
