The Stratton Range Stratton Double

Stratton Double. Create a stunning display with our stylish range of solid wooden lighting bollards. Fitted with energy efficient LED low voltage lamp units. Can be used in multiple areas including car parks, driveways & paths & commercial areas, even indoors!

With its generous proportions this lighting bollard is sure to make an impact where ever you put it. It will give you years of reliable service.

Made from components that can be recycled or naturally decompose at the end of its useful life. We believe style doesn't have to leave a legacy long after the light has been finished with.

We really want you to appreciate this product to its maximum so we give it a coat of Danish oil before it leaves us. This brings out the fantastic colours and grain and ensures it stays that way.

Milled from "green" timber this lighting bollard will crack, twist and warp over time - this is completely normal and just adds to the character, no 2 will ever be the same!

Features & Benefits:

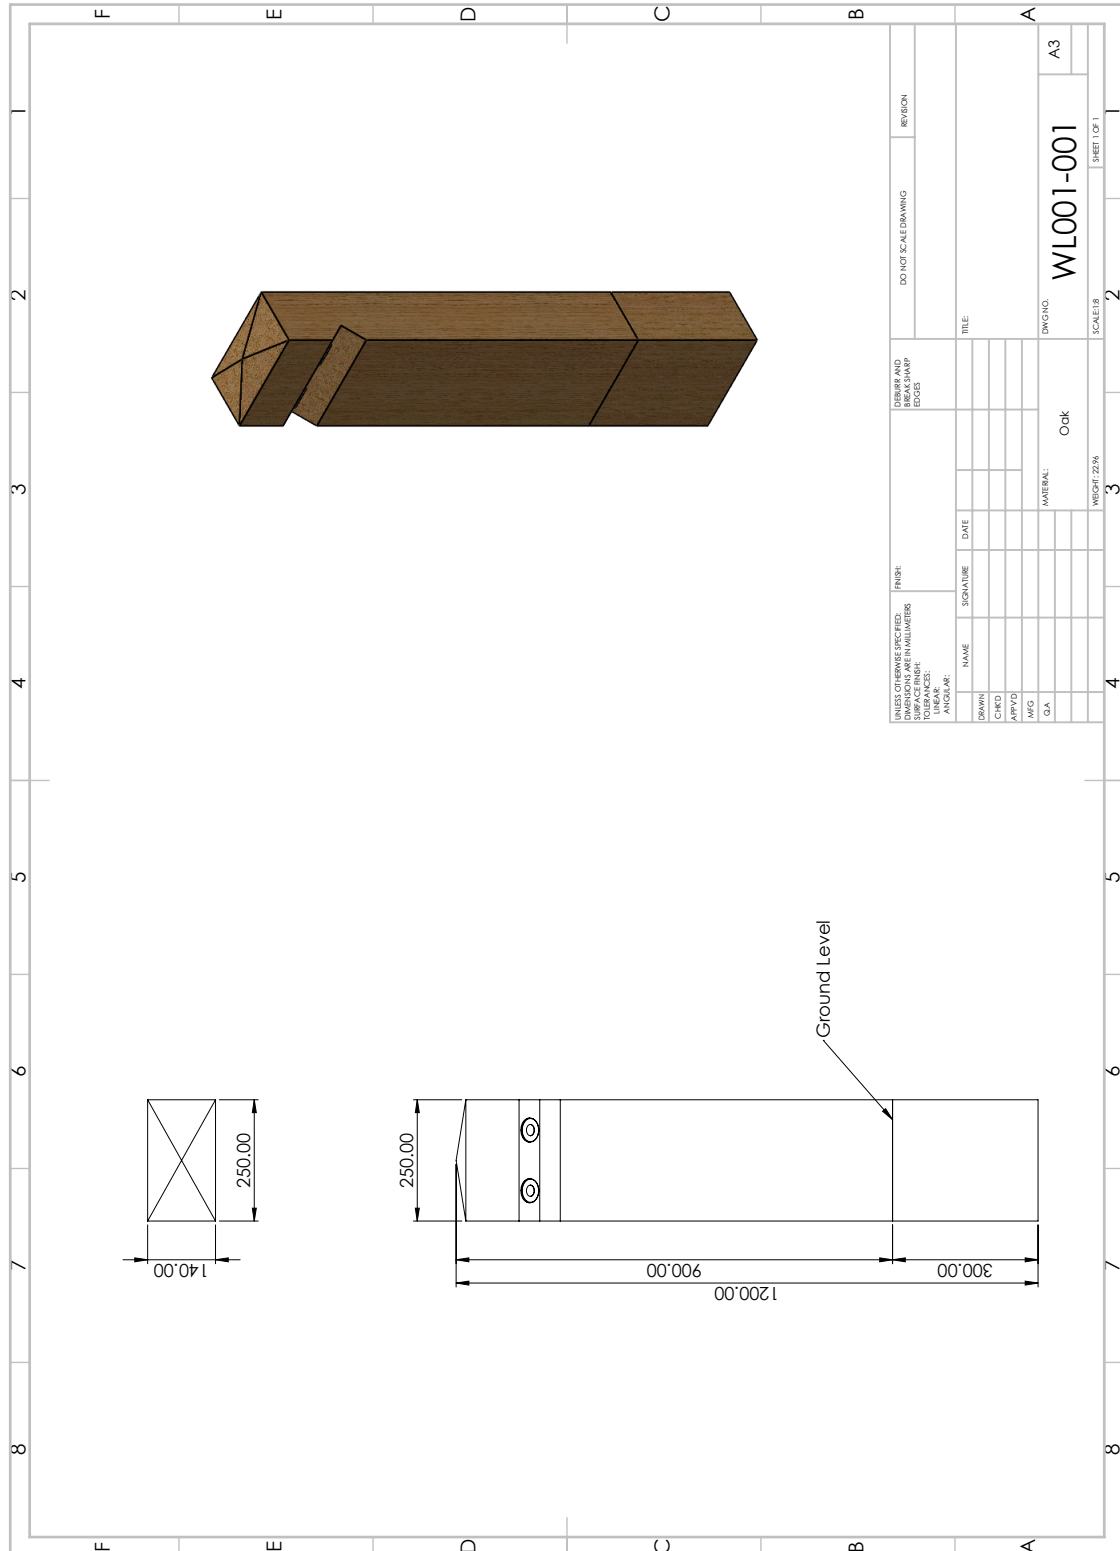

- Durable Materials & construction
- Multiple timbers & sizes available
- Mains powered 240v
- High efficiency LED lamps (2 x 1.3w)
- Easy to install
- Low maintenance
- Sustainably sourced timbers
- Dimensions: 250x140x1200 (900mm above ground level)
