The Sway Range Sway Flow

Create a stunning display with our stylish range of solid wooden lighting bollards. Fitted with energy efficient LED low voltage lamp units.

Can be used in multiple areas including car parks, driveways & paths & commercial areas even indoors!

Totally unique domed design with continuous band of ultra-bright led strip following the contour of the bollard.

With its generous proportions this lighting bollard is sure to make an impact where ever you put it. It will give you years of reliable service.

Made from components that can be recycled or naturally decompose at the end of its useful life. We believe style doesn't have to leave a legacy long after the light has been finished with.

We really want you to appreciate this product to its maximum so we give it a coat of Danish oil before it leaves us. This brings out the fantastic colours and grain.

Milled from "green" timber this lighting bollard will crack, twist and warp over time - this is completely normal and just adds to the character, no 2 will ever be the same!

Note, pictured example is the sawn finished example

Features & Benefits:

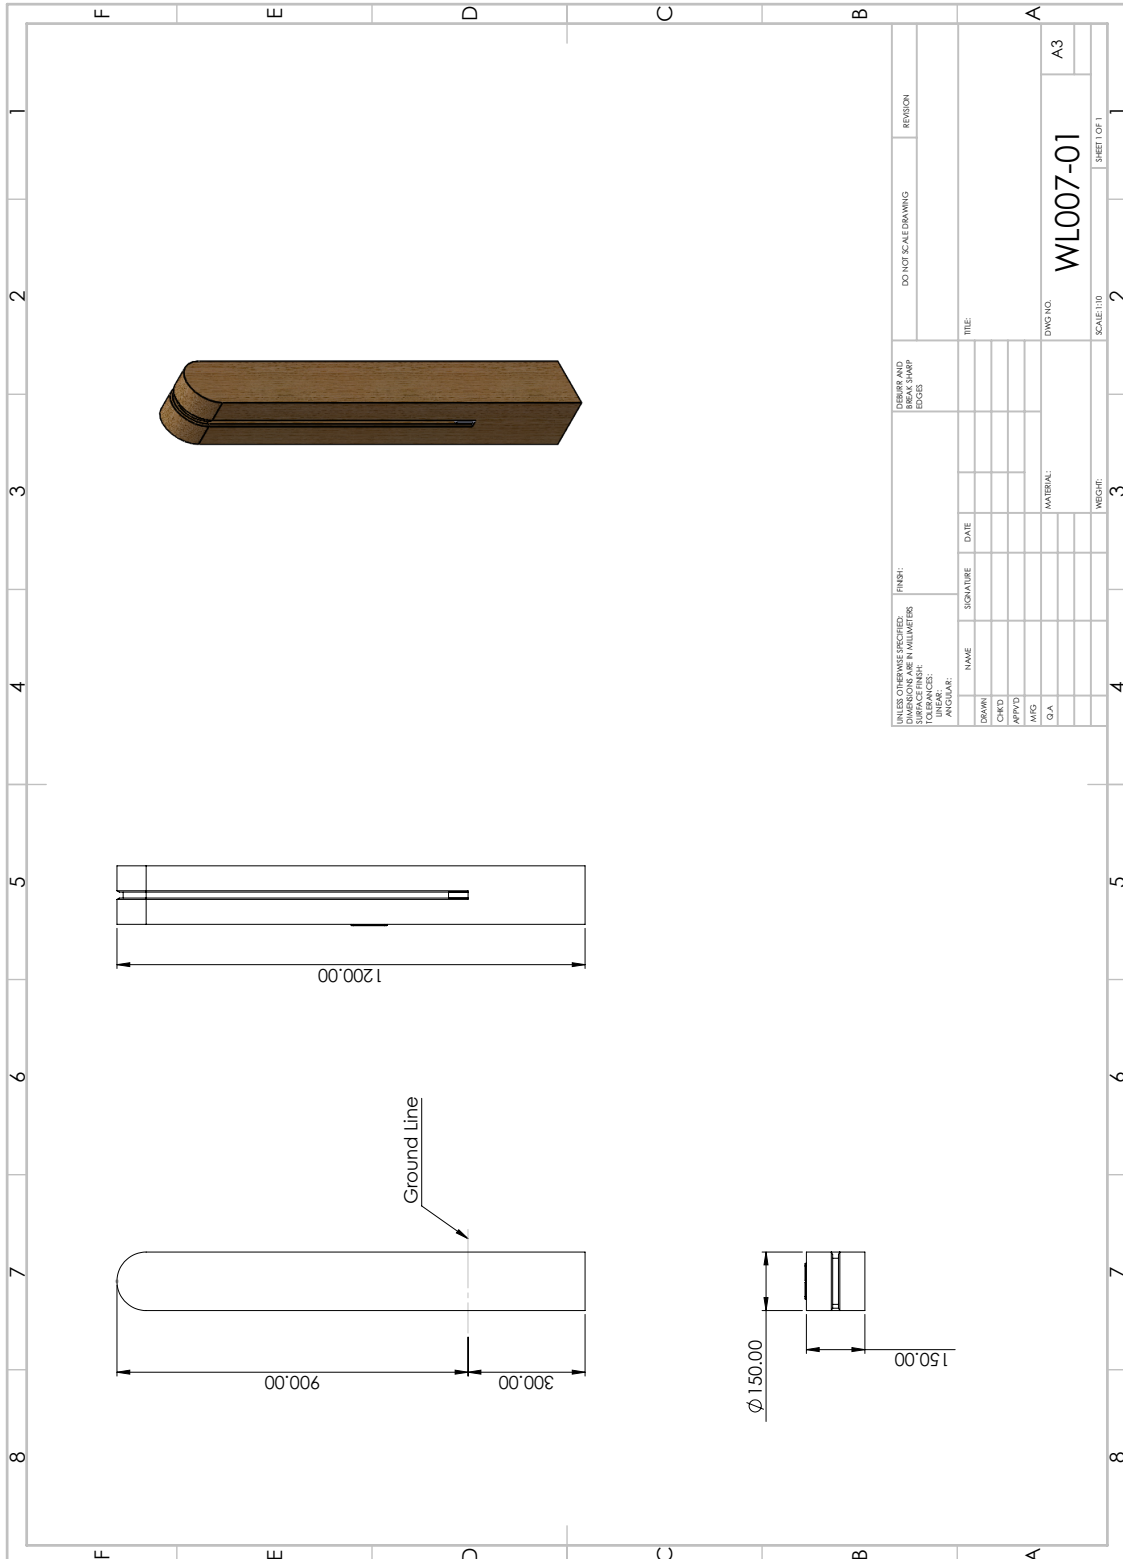

- Durable Materials & construction
- Available in Oak & Larch - other timbers on request
- 240v LED driver installed as standard
- High efficiency LED strip
- Easy to install
- Low maintenance
- Sustainably sourced timbers
- Dimensions: 140x140x1200 (900mm above ground level)
