

P4-M

Manufactured to
EN13236

DESCRIPTION:

Our mid-performing mortar raking blade benefits from a higher diamond concentration to improve all-round performance and lower the cost per metre cut. Use in conjunction with the EVORAKE bit for perfect results.

FEATURES:

- 6mm Wide diamond segments
- Higher diamond concentration

MACHINE SUITABILITY:

Electric and cordless angle grinders

STANDARDS:

EN13236: European Standard that regulates the safety requirements for super abrasive (diamond) products.

DIAMOND BLADE TIPS:

- Make certain the blade is suitable for the material before cutting
- Guide the blade straight into the material.
- Mortar raking creates a large amount of airborne dust. It is strongly advised that a machine with a fitted dust extraction guard is used, and coupled to a dust extraction unit, with a minimum specification of 'M-Class'. This is in addition to wearing the full and appropriate PPE.
