Our high-performing mortar raking blade is 6mm wide and has wear inserts to prevent undercutting and increase blade life.

### FEATURES:

- 6mm wide diamond segments
- Higher diamond concentration
- Tungsten wear inserts
- Undercut protection

### MACHINE SUITABILITY:

Cordless and electric angle grinders.

### STANDARDS:

EN13236: European Standard that regulates the safety requirements for super abrasive (diamond) products.

### USER TIPS:

- Make certain the blade is suitable for the material before cutting
- Guide the blade straight into the material
- Mortar raking creates a large amount of airborne dust. It is strongly advised that a machine with a fitted dust extraction guard is used, and coupled to a dust extraction unit, with a minimum specification of 'M-Class'. This is in addition to wearing the full and appropriate PPE.
