

P5-VB

Manufactured to EN13236

DESCRIPTION:

Commonly known as a Rescue Blade, the P5-VB is a vacuum brazed diamond blade that is suitable for cutting a wide range of materials such as wood, plastic, steel sections, sheet metal, aluminium, copper, rubber, cast iron, bricks, blocks, regular building materials and cement based fibre board.

FEATURES:

Fully exposed diamonds joined by vacuum brazing process.

MACHINE SUITABILITY:

Angle grinders, hand held saws, plunge saw and table saws.

STANDARDS:

EN13236: European Standard that regulates the safety requirements for super abrasive (diamond) products.

USER TIPS:

- Make certain the blade is suitable for the material before cutting
- Guide the blade straight into the material
- Do not use unnecessary pressure, the weight of the machine is sufficient
- Carry out a slight forwards and backwards pendulum movement when cutting
