

RX-3000 Hardhat All-in-One PAPR

TH3 PROTECTION

The best available protection – suitable for use with silica dust.

NO FACE FIT TESTING

Loose fitting protection requires no face fit testing or multiple sizes.

WORKS WITH BEARDS

Unlike traditional tight-fit RPE there is no need for operatives to be clean shaven.

The **RX-3000** is a compact **All-In-One** powered respirator with no waist-mounted blower or hose, giving users greater freedom of movement on site. Its single-piece design makes it quick and easy to put on or take off when moving between tasks, while remaining practical for longer periods of wear. With everything built into one unit, there are fewer parts to manage, check or maintain.

Paired with the **Pro-Stack Tough Case**, it gives the kit a proper place to be stored, helping operatives protect it between tasks and keep it ready for use.

4 IN 1 PROTECTION

RESPIRATORY PROTECTION

Loose-fitting powered respiratory protection to the highest TH3 / APF40 level.

HARDHAT PROTECTION

Integrated construction hardhat certified to the EN397 standard.

IMPACT VISOR

B-rated impact visor tested to withstand a 6mm steel ball at 120m/s, suitable for cutting and grinding tasks.

OPTIONAL EAR DEFENDERS

Clip-in ear defenders providing SNR 32dB hearing protection.

RX-3000

Rear Grip for Extra Stability

Helps keep the helmet stable when bending, reaching or moving on site.

Quick and Easy to Put On/Off

No hose, waist blower or separate power pack - simply put on and get to work.

Rear-Mounted Filter

Positioned away from the direct dust path to help reduce filter loading.

Front Flip Visor

Lift the visor when needed without removing the full helmet system.

3 Airflow Speeds

Adjustable airflow helps improve comfort and reduce visor misting during work.

Well-Balanced Lightweight Unit

Designed to sit securely and comfortably on the head during active work.
