Usage guidelines

Skipper™

The total safety management solution

The Skipper **XS** suction pad holder/receiver

Handle

Opens out fully to release suction cup.

Holds XS unit

Simply clip in the XS unit.

Lip

Pull from here to safely and easily remove from surfaces after use.

Suction cup

Creates a vacuum to secure in place.

Receives tape end

Clip in the tape end clip.

With the handle fully open, press firmly to glass or a high gloss surface and then close the handle until it clicks into place

Then simply attach either a Skipper XS unit, or any Skipper tape end by clicking into place

To remove, fully open the handle and pull away from the surface by peeling from the lip

IMPORTANT NOTICE: Always fully open the handle and pull from the lip to remove safely. Do not attach to painted walls as this could cause damage
