

REVOLUTION 2 GTX HIGH

ART. SG76013

Revolution 2 GTX High moves the boundaries of agile and mobile winter safety boots. ETPU technology, which provides cushioning and comfort for endless hours of walking while reducing pressure, also comes with benefit of maintaining softness even in cold temperatures, allowing maximum contact area with the ground. Combining the ETPU midsole with the specially developed, together with Michelin®, lightweight rubber outsole results in extraordinary traction and grip in winter conditions. GORE-TEX® winter lining and membrane to ensure cold insulation and prevent water from getting inside the boot. The lightweight CORDURA® ripstop upper and the MATRYX® will wrap your foot for complete comfort and support, all while allowing powerful movement. BOA® Fit System for a micro-adjustable and precision fit. The specially developed high rebound OrthoLite® insole is mainly made of recycled materials. NANO toe cap and soft nail protection.

Most lightweight and agile safety winter boot on the market
Michelin® Module rubber outsole for superior traction in winter conditions
High performance ETPU midsole that remains soft in cold temperatures
BOA® Fit System on flap construction with MATRYX® wrap
GORE-TEX® winter lining and membrane
Upper: CORDURA® ripstop nylon
Lining: GORE-TEX® wool and polyester
Membrane: GORE-TEX®
Outsole: Oil and slip resistant

Michelin® winter optimized rubber
Midsole: ETPU Footbed: PU foam
with highly breathable recycled
materials Function: BOA® Fit
System Fit: Normal Sizes: 36-48
Safety standard: EN ISO
20345:2022 S7S, SR, HRO, FO, CI
Protection: NANO toe cap and soft
nail protection
