V-6700B Conspicuity Tape

Avery Dennison® Solid construction offers superior durability

- The solid, metalized construction ensures lasting reflectivity and tape integrity; does not require edge sealing
- Damaged air cells in the construction of other tapes can fill with dirt and water and lose reflectivity

Lowest recommended application temperature*

- Low-temperature adhesive can be applied in cold weather situations
- Offers easy application through a wide range of temperatures**

	Avery Dennison®	3M™ ²	Orafol® ³
Minimum Application Temperature	0°C	10°C	15°C

² 3M™ Diamond Grade™ Vehicle Marking Film Series 983
³ Orafol® Oralite™ VC 104+

* Application temperatures taken from 3M™ and Orafol® technical data sheets found on their respective websites on 5/15/2015 and are subject to change per their discretion. Products have not been independently tested by Avery Dennison®, and Avery Dennison® has not evaluated the testing conditions used by 3M™ and Orafol®.
 ** Application temperatures can be found on Product Data Bulletins

Initial repositionability, long-lasting bond

- Application errors can be fixed quickly and easily
- Fast, easy application with less waste

Advantages

- Exceptional all-distance viewing at dawn, dusk, and night
- Comprehensive warranty for OEM and retrofit applications
- Includes ECE 104 certification mark that is protected against abrasion ensuring continual compliance
- Omnidirectional technology ensures uniform brightness at all installation angles
