

# Firmus Professional Barrier

## Product Info:

The Firmus Professional barrier is crafted to visually and physically integrate with other barrier models, ensuring it blends effortlessly into most site set ups.

It comes in the standard Orange colour with a black anti-trip foot or an optional hi-vis yellow anti-trip foot.

Key features include an updated pin-and-eye system, a robust foot and a class-leading spigot - both designed to be nearly indestructible under typical field use.

In conclusion, the Firmus Professional barrier is crafted from 98.5% recycled HDPE, delivering notable CO2 savings in comparison to non-recycled options.

## Key Features:
