GAMMA Berlin cushion oval, with white border, red, 2,800 × 1,800 × 70 mm (L x W x H)

Berlin cushion in an oval sinusoidal design. High-quality and hard-wearing made of recycled rubber vulcanized in layers. Available in black or red, each with a white edge

Due to the vibration-insulating design **lower noise pollution** compared to other speed limiters.

The ramp gradient in a ratio of 1:8 ensures a psychological effect for **speed reduction to < 50 km/h**. In combination with accompanying measures such as signage or lane markings **also suitable for speed limits in 30 km/h zones and traffic-calmed areas**.

- Low height of 7 cm can be easily driven over by all vehicles
- User-friendly for buses, ambulances and cyclists
- Recommended distance between two cushions approx. 70 to 140 m
